Q: What is GIDEP? A: GIDEP (Government-Industry Data Exchange Program) is a cooperative activity between government and industry

participants seeking to reduce or eliminate expenditures of resources by making maximum use of existing information. The program provides a media to exchange technical information essential during research, design, development, production and ... Frequently Asked Questions - FAQ - GIDEP - An aluminum electrolytic capacitor with a non-solid electrolyte always consists of two aluminum foils separated mechanically by a spacer, mostly paper, which is saturated with a liquid or gel-like electrolyte.
